Monthly Management Report UBGS – ADC

February 2026

1. Segment Information

1.1 Successfully running for mass production

Overview by Segments	Feb.-26			YTD 2026 (Jan. - Feb.)	2025 (Jan. - Feb.)
	Auto	I&C	Total		
No. of Projects	7	8	15	51	43
Project Pot. [t/a]	420	241	661	1'894	1'432

Seg	Customer/OEM Application Product Project No.	AD/Sales Pot. [t/a] SOP	Reasons for Success
Auto	Rixin/Various Cable Protective Layer Grilamid L 20 G Natural 265-231017-1	HUAB/SONS 20 t/a, unplanned 02.2026	- High impact performance at low temperature - Passed VW-1 wire flammability test
	TI-Automotive/VW Fuel Line Grilon BRZ 234/1 W Natural 210-250709-1	J1JA/HUNJ 300 t/a, planned 02.2026	- Good material performance - Good commercial relationship and technical service
	Yusei/VinFast Lens Carrier Grivory HTV-3H1 BLACK 9205 240-221018-1	ZHZA/ZHAR 30 t/a, planned 02.2026	- Good stiffness and strength - Dimensional stability
	Huiyu/BAIC CAC Housing Grilon TSG-50/4 W2 Black 9839 250-221202-1	ZHZA/ZHAR 15 t/a, planned 02.2026	- Good heat aging resistance - Good surface finish and flow ability - Success stories with this application
	Wabco/Dongfeng AMT Guide Plate Grivory HTV-5H1 Natural 260-220901-1	ZHZA/ZHAR 25 t/a, planned 02.2026	- Good stiffness and strength - Dimensional stability
	Privalley/Various Actuator Gear Grivory HT2V-3H LF Black 9205 240-240131-2	ZHZA/ZHAR 15 t/a, unplanned 02.2026	- Good stiffness and strength - Dimensional stability - Low sliding friction
	Knorr/Various ECU Sensor Housing Grilon TSG-30/4 Black 9832 240-241114-2	CHFI/GUOH 15 t/a, planned 02.2026	- Successful case - Technical service and good relationship with customer
I&C	CX/Halter Cow Collar Base Buckles Grivory GVN-5H 720-251118-1	WONJ/SUN 160 t/a, unplanned 02.2026	- Good technical support (MFA, FEA and material suggestion) to customer - Reliable and stable material performance after moisture absorption
	ZYSJ/Kangyu Infusion Pump Screw Grilon TSG-30/4 710-250912-2	LICR/DAID 10 t/a, unplanned 02.2026	- Good stiffness and strength - FDA approval
	Kaiheng/Jingda Water meter cover Grilamid TR 90 410-250213-6	PEPE/LUHB 20 t/a, unplanned 02.2026	- Good low temperature resistance - Dynamic pressure resistance
	Goertek/Libratone Headset Bracket Grilamid TR 90 850-250811-2	PEPE/JINE 15 t/a, planned 02.2026	- Excellent fatigue resistance - Success reference
	EFC/Nestle Coffee Machine Thermal Block Housing Grivory HTV-4H1 480-251009-1	ZHVI/MOSK 28 t/a, planned 02.2026	- Success reference - Good material performance

Seg	Customer/OEM Application Product Project No.	AD/Sales Pot. [t/a] SOP	Reasons for Success
I&C	Zhiyuanhao/Wancai Telescope Grivory GVX-5H 740-250710-1	JIAJ/YAME 6 t/a, unplanned 03.2026	- Material performance (low warpage & high stiffness)
	Makichie Hearing Aid Inner Board Grivory GV-5H 120-240902-1	MORT/OZAN 1 t/a, unplanned 01.2026	- High strength and stiffness for thin wall thickness part - Continuous support by EMS - Success reference
	Makichie Hearing Aid Housing Grilamid TR 55 LX 120-240902-2	MORT/OZAN 1 t/a, unplanned 01.2026	- Light weight - Chemical resistance - Success reference

1.2 Lost Projects

Overview by Segments	Feb.-26			YTD 2026 (Jan. - Feb.)	2025 (Jan. - Feb.)
	Auto	I&C	Total		
No. of Projects	1	4	5	136	97
Project Pot. [t/a]	20	61	81	6'789	3'937

Seg	Customer/OEM Application Product Project No.	AD/Sales Pot. [t/a]	Reasons for Loss
Auto	Mico/Various Trucks Connector Grilon TSGZ-15 Black 9832 260-250723-1	HUAB/BAIB 20 t/a, planned	- Reason classification: R - Dead after milestone: Sampling done - The customer cancelled the share-shift since there was no more supplying risk of Celanese material from USA
I&C	Xiechuang/Macro Pump head Grivory XE 12342 (G2V-GF60) 520-211105-1	CHER/JIMJ 8 t/a, unplanned	- Reason classification: M - Dead after milestone: Test passed - Xiechuang didn't get the order from Macro, and stopped project.
	Changyang/Adidas Sports Shoe Carbon Plate Grilamid LCL-3H 825-250313-1	ZHVI/CHJM 8 t/a, planned	- Reason classification: M - Dead after milestone: Test passed - Philland didn't get the order from Changyang, and stopped project.
	Dayin/Nike Sports Shoe Carbon Plate Grilamid LC-15H 820-250806-1	ZHVI/CHJM 15 t/a, unplanned	- Reason classification: M - Dead after milestone: Sampling done - Relationship for trial, but no production commitment
	Gunflower Gun Holster Housing Grilon AZ 3/2 740-250513-1	ZHUE/GAOH 30 t/a, unplanned	- Reason classification: M - Dead after milestone: Solution accepted - No chance for sampling, project didn't start

Reason classification:

M-Application never went into **Market**. Customer stopped or lost this project.

C-Application went into Market but with another **Company** than our customer. Our customer stopped or lost this project.

T-**Technically** not realized. EMS failed to reach the specific requirements to which we committed at the beginning of the project.

P-We lost the project because EMS increased the **Price** during the project development

R-**Requirements** changed. The customer changed the specific requirements than they were defined at the beginning of the project.

S-Customer is not following EMS **Suggestions**. EMS offered a feasible solution but customer refused to implement it.

O-Any **Other** reason, e.g. insufficient hand-over, repeated projects, etc.

- In Automotive, only 1 project was lost because the supply risk was released from the competitor.
- In I&C, the projects were lost since our customer did not get the project or order from their customers.
- In general it can be seen that we lose a lot of projects which are weak projects or not real projects yet. That is why we have to concentrate on our Top Applications where we have a real USP. Consequently ADC will challenge the projects even more whether they are ready to be accepted as projects and will reject them if the projects are not yet in a state to be a potential successful project. This does not mean ADC will not support Sales with e.g. mold trials, but ADC might not accept it as a project yet.

1.3 Lifted Projects to ADC "+" (Tests Passed in AD List and ready to close the deal by Sales)

Overview by Segments	Feb.-26			YTD 2026 (Jan. - Feb.)	2025 (Jan. - Feb.)

2. Observations

2.1 Comparison of Project status in AD/TCS project vs SSS

- There are 30 + 70 projects which can be lifted to SSS+ from AD/TCS point of view
- There are 9 + 25 projects which Sales thinks the projects are ready to materialize but AD/TCS did not yet achieve the status of "Tests passed" for these projects

Segment	No. of project in different status	
	(+ in ADC project list but other status in SSS)	(+ in SSS but other status in ADC project list)
Automotive	30	9
I&C	70	25

2.2 Analysis of project changes in SSS

The analysis of the project changes in SSS between 16 Jan. 2026 and 15 Feb. 2026 shows the following:

- in Automotive, 3 Main PFAM projects with a potential of 280t were lifted, and no Main PFAM project was lost.
- in Automotive, 2 Main PFAM projects with a potential of 55t were set Closed which missed the deadline of SSS annual update task.
- in Automotive, 1 Main PFAM project with a potential of 5t was reversed.
- in Automotive, 1 Main PFAM project with a potential of 27t was recovered.
- in I&C, 11 Main PFAM projects with a potential of 287t were lifted, while 3 Main PFAM projects with a potential of 31t were lost.
- in I&C, 1 Main PFAM project with a potential of 50t was reversed from + to N.
- in I&C, 1 Main PFAM project with a potential of 5t was changed status from + to C which missed the deadline of SSS annual update task.
- in I&C, 8 Main PFAM projects with a potential of 221t were changed status from D/C to other status due to wrong set before.

Table 1: Project changes from Jan. 16th 2026 to Feb. 15th 2026 (Main PFAM)

AUTO	No.	Pot. [t/a]	FOC 26 [t]	FOC 27 [t]	FOC 28 [t]	FOC 29 [t]

3. Personnel and Various

- **Open positions ADC:** (as below, additional positions to be hired as needed):

- 1x TPE I&C (Shenzhen), pending

- **Job transfer:**

- **Mr. Simon Guo**, currently AD Manager I&C UBGS, will take over the new responsibility as Sales Group Leader I&C for Data Center Applications, effective from March 1st 2026.

Thanks for his contributions and building up a strong ADC I&C team in the past years and we wish him further success in his new function!

4. Key Activities Next Month

- 3-YP 2027-2029 (FNM)
- Work arrangement for I&C team (FNM)
- Tech-days at customers (AD/TCS & CATS)
(Jingda, Aptiv, Huaxiang, CATL, Autoliv, Youlimeiye/CM Tech, Huawei/Gengde Electronics, Midea & Little Swan, FCI Amphenol, Shokz/Anker, Simatelex, NRWAL, Longxuan, Direct Drive, Haier, Gaolan, Socomec China, Etpump, Globe Group, Festo, Best Med)

Best regards,

M. Fenner

Appendix (Utilization)

1) New Initiated Projects with PDS
(UBGS; Resp. FANH)

	ADC Approved				ADC Rejected	
	Feb. 2026		YTD 2026		Feb. 2026	YTD 2026

2) TECH-Days & Customer Visits
(UBGS; Resp. FANH)

	TECH-days & Pot. reported				Customer visits with VRs	
	Feb. 2026		YTD 2026		Feb. 2026 (01.16 ~ 02.15)	YTD 2026 (till 02.15)
AUTO	No.	Pot.[t/a]	No.	Pot.[t/a]	37	146
	12	1'612	23	2'934		
I&C	No.	Pot.[t/a]	No.	Pot.[t/a]	64	164
	12	540	27	1'120		

3) CATS (UBGS; Resp. ZHDA)

		2026(Jan. - Feb.)	2025(Jan. - Feb.)	YoY change
FEA	No. of TIs	10	4	150%
MFA	No. of TIs	10	7	43%
Failure Analysis	No. of TIs	14	9	56%
	Test quantity	52	45	16%

4) Process Technology (ECSZ; Resp. ZTOM)

	2026(Jan. - Feb.)	2025(Jan. - Feb.)	YoY change
PT Work Orders (WO)	100	80	25%
Trials with customer molds in ADC	4	3	33%

5) Material Testing (ECSZ; Resp. WAIM)

		2026(Jan. - Feb.)	2025(Jan. - Feb.)	YoY change
Material Testing	No. of TIs ¹⁾	82	63	30%
	Test quantity ²⁾	545	712	-23%
3 rd -Party Test	No. of TIs	27	12	125%

1) TI = Technical Inquiries;

2) Test quantity = No. of TI x No. of tests per TI; reflects actual work load
